Law and Ethics in Paediatrics

12 - 13 February 2020

A two day course looking at Medical Law and Ethics as applied to Paediatric practice, with a particular emphasis on the legal principles, professional guidance and problem solving.

Topics covered include:

- negligence
- confidentiality
- child protection
- research
- end of life care
- organ donation
- reporting of deaths and the Coronial process

The course includes a visit to Westminster Coroner’s Court.

Course participants will acquire basic knowledge of medical law and ethics relating to all aspects of paediatric practice. Problem-solving skills necessary to solve practical problems will be developed and honed through open discussion of difficult cases.

Of interest to paediatricians, lawyers, paramedical staff, medical and law students.

Course fees:

£395   Medical Doctors and Lawyers
£300   Nurses, Allied Health Professionals and others
